Significance of World Environment Day

- **Reconnecting with Nature:** By promoting park exploration and highlighting our shared relationship, it cultivates a greater understanding of the complex role that nature plays in human well-being.
- **Raising Awareness:** It plays a crucial awareness-building role- educating networks on Earth's fragile, indispensable resources.
- **Driving Action:** Raising attention to problems affecting our land, air, and water, encourages teamwork in addressing risks to our survival.

Swami vivekanand college of education NSS Unit was scheduled to celebrate environment day on 5th june, 2024 but due to extreme hot weather, this environment day was shifted to 14th June ,2024 at Swami Vivekanand College of Education. The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. The first-ever Environment Day was held in 1973. Environment Day acts as a platform that helps create awareness about various issues that have adverse effects on the environment, like global warming, overpopulation, pollution, and crime against wildlife. Before Start of the event, by NSS volunteers, the plants in the college campus were cleaned, watered and new plants were planted.

As part of World Environment Day celebrations, a painting and slogan writing competition was organized on 14th 2024, on various themes like Water Conservation, Urban Forestry, Wildlife Protection and Pollution. B.R. Sharma was the Chief Guest for the occasion. Ceremonial tree planting was taken up by the Hon'ble Chief Guest and the staffs of Institute of Swami Vivekanand College of Education, Tarkwari. The event started with the welcome address. The Hon'ble Chief Guest emphasized that the lakes are being encroached and the habitat of wildlife is destroyed; ecological equilibrium is broken by human action and pollution is raising the temperatures in the surroundings with bird deaths in front of human eye. Water shortage has to be overcome and water for all living beings should be the slogan, and humans should not endanger the other life forms by drawing water from 300 to 400 m depths. Following the address by the speaker, the winners of the painting and slogan writing competition were felicitated with a trophy and a certificate. The environment awareness

event was concluded with a vote of thanks by Dr. Kuldeep Singh. In conclusion, every year, World Environment Day serves as a reminder of our shared responsibility to safeguard the environment. It also celebrates advancements and calls for significant action to maintain the natural world for the coming generations.
