EDUCATION, TARKWARI**

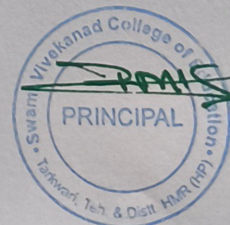

**ACCREDITED BY NAAC WITH GRADE -B**

### **REPORT ON WORLD ENVIRONMENT DAY**

World Environment Day, celebrated globally on June 5, the Swami Vivekanand College of education ECO CLUB in collaboration with NSS Unit, organized Green Celebration. The event was designed to spread awareness about environmental conservation and to inspire students to adopt eco-friendly habits in their daily lives. With the powerful theme "Beat Plastic Pollution". Big Impact – Save the Environment', the celebration aimed to promote the idea that even small efforts can contribute greatly to the protection of nature.

The day began with an energetic flash mob performed by students, capturing attention and setting an enthusiastic tone for the programme. The official inauguration followed, where the Principal was warmly presented with a plant by Dr. Silva, the convenor, along with the Natural Club members & NSS volunteers. This symbolic gesture marked the formal beginning of the celebration and reflected the core idea of nurturing and protecting nature. Mrs Amita Rani addressed the gathering with the specialty of the day, highlighting the significance of Environment Day and the relevance of the activities planned. One of the most engaging events was the poster- making competition, conducted by NSS unit, which tested participants' knowledge of environmental issues in a lively and interactive manner.

The event was visually enriched by a beautiful poster designed by NSS volunteers, which creatively conveyed the message of environmental responsibility. Other exciting programmes included a plantation drive. The competitions encouraged students to think deeply and express creatively about environmental issues, while the plantation activity allowed them to take real, impactful action by planting saplings on campus.

Overall, the Green Celebration 2025 was a successful and inspiring event. It not only celebrated World Environment Day meaningfully but also instilled in students a deep sense of responsibility toward the environment. The ECO-Club and NSS Unit deserve great appreciation for organizing a well-rounded and purposeful programme that blended awareness, creativity, and action.
